Since 2015, we have distributed 357,352 meals to date to the children of our community. At Provision Packs, we provide on average 635 well balanced nutritional packs for children on the weekend and extended breaks during the school year. Our goal, through these bags, is to offer support and to relieve some of the parents' burdens. most importantly, we hope that these packs provide the blessing of nutrition and bring comfort to the children in our program so that our youth can focus on their academics and become healthy, successful young adults.

What We Do

Feeding kids and reducing hunger one pack at a time
